

PORTFOLIO

Hi! 🙋

My name is Ksenia. I'm an illustrator.

I create various types of illustration: for animation, marketing videos, websites, mobile applications, 2d games.

I prepare illustrations for animations (appropriate layer division, including preparation for rigging and plugins such as Duik, Rubber Hose 2 or Joystick 'n Sliders)

This portfolio shows my works for about last two years as newbie illustrator (Yes, it wasn't my main specialty).

Enjoy 😎
